

In July 2009, Coosa Valley Technical College and Northwestern Technical College will join forces to become Georgia Northwestern Technical College, the fifth largest technical college in Georgia and the largest college in Northwest Georgia.

How will the merger of CVTC and NTC affect me?

Students benefit from merger:

- ✓ close to 200 programs of study
- ✓ four convenient campus locations
- ✓ focus on building workforce skills
- ✓ enhanced hands-on classroom and lab experiences
- ✓ expert team of instructors
- ✓ latest equipment and technology in program areas
- ✓ clinical rotations in some of Alabama, Georgia, and Tennessee's premier healthcare facilities

What programs can I take at Georgia Northwestern Technical College? Georgia Northwestern Technical College will offer students close to 200 programs of study in the areas of business, health, industrial, and personal/public service. Within those program areas, students can choose degrees, diplomas, and certificates of credit.

There is a program listing by division area and campus on page 3 and 4 of this booklet.

Where will classes be held for Georgia Northwestern Technical College? Georgia Northwestern Technical College has four convenient campuses including the **Floyd County Campus**, located in Rome; the **Gordon County Campus**, located in Calhoun; the **Polk County Campus**, located in Rockmart; and the **Walker County Campus**, located in Rock Spring.

Students enrolled in a program at Coosa Valley Technical College (CVTC) or Northwestern Technical College (NTC) will continue taking their courses at their current campus location. Beginning summer quarter, students enrolling at Georgia Northwestern Technical College can take general education pre-requisites at any of the above campuses in which the course is offered. Once a student begins their occupational courses, they will then need to declare their campus. The campus students declare will depend largely on what program they choose and on which campus it is offered.

Will the admissions procedures change for Georgia Northwestern Technical College?

The admissions procedures for Georgia Northwestern Technical College (GNTC) will be very similar to the current procedures at CVTC and NTC. Students will be required to provide the same application and financial aid information, as well as pass ASSET or COMPASS placement tests, provide satisfactory ACT or SAT scores, or provide college transcripts. All program areas, with the exception of health, will follow regular admissions procedures. Health programs will use competitive admissions procedures.

How will the merger of CVTC and NTC affect me?

Four Convenient Campus Locations

Floyd County Campus

One Maurice Culberson Drive
Rome, Georgia 30161
706-295-6963

Gordon County Campus

1151 Hwy. 53 Spur
Calhoun, Georgia 30701
706-624-1100

Polk County Campus

466 Brock Road
Rockmart, Georgia 30153
770-684-5696

Walker County Campus

P.O. Box 569
265 Bicentennial Trail
Rock Spring, Georgia 30739
706-764-3510

Interesting Facts About GNTC

- ☑ serves seven counties including Catoosa, Chattooga, Dade, Floyd, Gordon, Polk, and Walker
- ☑ GNTC will have an impact on over 16,000 people each year in Northwest Georgia
- ☑ anticipates credit enrollment of 8,200 students; another 8,000 enrolled through adult education, continuing education, business and industry training, and Georgia Quick Start
- ☑ GNTC will be Northwest Georgia's premier college for workforce development

Will there be any new programs added at Georgia Northwestern Technical College? Will programs be moved from one campus to another? As with CVTC and NTC, Georgia Northwestern Technical College will continuously add programs that benefit our students and the communities we serve. Georgia Northwestern Technical College will conduct needs analysis studies for each proposed new program or campus location move to determine the demand and viability of the program. If the needs analysis reveals positive results for new programs or warrants a program being moved, then GNTC will follow the Technical College System of Georgia's program accrediting guidelines to begin the procedure.

Can I apply for competitive admissions in a health program on more than one Georgia Northwestern Technical College campus? Because of the competitive nature of the programs and the limited number of students allowed in each program, students will need to declare a campus in which they wish to apply for the particular health program they are interested in. Students will not be able to apply for the program on more than one campus.

Where will graduation be held and what will my diploma say? Georgia Northwestern Technical College will hold two graduation ceremonies each year, one at the Convention Center in Dalton in June and one at the Forum in Rome in December. Students may choose to attend graduation at either location. Beginning July 1, 2009, all diplomas will be awarded by Georgia Northwestern Technical College.

Where do I go if I need help with registration, financial aid, or other college services? Will each campus have a library and a bookstore? Each of Georgia Northwestern Technical College's campuses will have representatives that can answer registration and financial aid questions. Students will be able to complete the registration process at the campus they choose to attend. Each campus will also house a library with student resources and a campus bookstore. Beginning July 1, 2009, Georgia Northwestern Technical College will take over operation of the bookstore on the Walker County Campus. This will provide more flexibility for the students and instructors. GNTC bookstores will carry essentials you will need for your classes including textbooks, study guides, supplies, college apparel, and more.

Will Georgia Northwestern Technical College have a new website and will students get a college email address? On July 1, 2009, Georgia Northwestern Technical College will launch the new college website. The new address for the website will be:

www.gntc.edu

All Georgia Northwestern Technical College students will be issued a student email account utilizing the Microsoft Live@edu student email system.

We are here to help. If you have any questions regarding the merger of CVTC and NTC please don't hesitate to contact us at one of the campus phone numbers listed at left.
